

THE STANLEY DISTRICT

TOWER

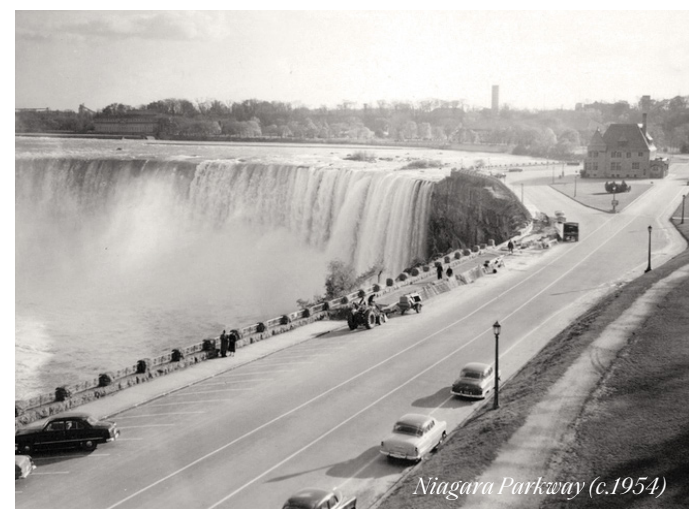

A Visionary Residential Experience
In The Heart of Niagara Falls

A PROUD HISTORY FLOWS THROUGH NIAGARA

For many decades the Falls were an attraction for honeymooners and for such stunts as walking over the falls on a tightrope or going over them in a barrel. Increasingly, the appeal of the Falls has become its beauty and uniqueness as well as the incredible attractions that have grown throughout the area. Casinos, museums, parks and trails, hundreds of restaurants, entertainment, wineries, and night life thrive in Niagara Falls. Yet, the real draw to Niagara has always been the breathtaking Falls themselves. From the jagged raw power of the American and Bridal Veil Falls to the sheer volume of the Horseshoe Falls on the Canadian side, tourists come from far and wide to enjoy one of nature's best shows.

In 1859, French tightrope walker Charles Bonding carried his manager on his back across the Niagara River on a tightrope.

In 1901, Annie Taylor was the first person to conquer the falls in a barrel. After climbing inside her airtight wooden barrel, the air pressure was compressed to 30 p.s.i. with a bicycle pump.
