

M CITY 5 CONDOMINIUMS

## WELCOME TO M5

M City has animated the landscape of Mississauga. With the grandest, tallest and most technologically advanced condominiums – from the stunning twin towers of the first two phases to the soaring M3, or the futuristic M4 – M City has sealed its position as the city’s most definitive mixed-use community. Since its inaugural market launch in 2017, M City’s quest for excellence is visible in its strategic master planning, iconic architecture and design, and ground-breaking amenities. The proud recipient of BILD’s prestigious ‘Project of the Year’ award, M City is poised to set a new benchmark with its newest phase.

## AN EXCEPTIONAL COMMUNITY

8-towers. 15-acres. 4.3 million square feet. M City is a master-planned community of magnificent proportions. Designed by Cooper Robertson, internationally acclaimed urban planners, it brings spectacular architecture, expansive green space, and modern lifestyle amenities into one landmark neighbourhood. With over 2 acres of new parkland and a dedicated connection to the Mary Fix multi-use trail and John “Bud” Cleary Park, M City embraces the relationship between natural and built-form environments.

Walkable and connected, M City is a people-first community. With generous tree-lined promenades, dotted with shops and cafes, minutes from transit options, including the forthcoming Hurontario LRT and Mississauga prime attractions – arts and culture, shopping, dining, schools, M City is at the centre of it all.

Illustration is artist's impression.

Overlooking the lush M Park, M5 ushers a calm living experience. The tower's reserved character reflects its more intimate and personal offerings. With a host of health and wellness-focused amenities and chic interiors that celebrate simple, clean lines, M5 is all about mindful living and balance: thoughtful design and stunning finishes, sustainability and luxury, technology and timelessness. M5 nurtures, inspires and enhances the everyday.

**A NEW  
EXPERIENCE**

The understated design of M5 exudes an air of quiet confidence. The tower's crisp linear silhouette is a combination of two staggered vertical volumes. With a geometry of black and white forms creating a grid-like pattern, M5 makes a simple yet elegant statement. The clean lines and dark masonry of the podium complement its restrained architectural character and work in unison to give M5 its unique voice within the overall community.

## A QUIET PRESENCE

## LIVE WELL

With a focus on well-being, interior design firm Cecconi Simone integrated biophilic materials and prioritized a connection to nature and the outdoors throughout the interior spaces and amenities.

“If we were to describe M5 as a persona, it is introspective, reserved and calm, offering residents the ability to choose to engage or be solitary in the myriad of beautiful amenity spaces available.”

ELAINE CECCONI / CECCONI SIMONE

## AMENITIES

LOBBY

Located on the seventh floor and weaving seamlessly between indoors and outdoors, the amenity program at M5 offers a spa-like experience for the mind and body.

The dedicated Wellness Centre features a signature Hammam steam bath, individual infrared saunas, meditation room, private treatment room and a Zen Lounge. This serenity spills onto the exterior terrace, where a hot plunge pool, hammocks, lounge seating, and a fire bowl maintain the spa-like feeling.

FITNESS CENTRE

M5 is home to an equal measure of calm and positive energy. The Fitness Centre includes a gym equipped with cardio and weight machines, a dedicated spin studio, a virtual fitness studio, and an outdoor yoga area to promote total wellness.

In addition to the wellness and fitness-focused options, M5 has an array of essential amenities designed with flexibility in mind. Multipurpose spaces that adapt to the occasion, from celebrations to work meetings, play dates to quiet moments of solitude. A dining room and event space, sitting room, media screening room, outdoor dining with barbecues, fireplace lounge, kids' indoor playroom and outdoor splash pad, and more are present for all to enjoy.

LIVE  
SMART

Connected lifestyle is a standard feature at M5. M City has partnered with Rogers to develop one of the most technologically advanced condominium buildings in Canada. With access to a smart building ecosystem, every resident at M5 will enjoy a unique and frictionless living experience.

 **ROGERS SMART COMMUNITY™**  
In partnership with 1VALET, Rogers Smart Community helps ensure safety and convenience are always at your fingertips. Every resident will have access to a smartphone-centric living experience which includes hands-free digital building access, video guest verification, facial recognition and more.

 **IGNITE INTERNET™**  
Every suite comes wired with Rogers Ignite Internet Gigabit. With download speeds of up to 1.5 gigabits per second, you can enjoy the true freedom of a consistent connection, perfect for Netflix marathons, virtual meetings, online gaming, smart appliances and so much more.

 **WIFI COVERAGE**  
With an advanced fibre-powered network, you can enjoy secure, state-of-the-art wall-to-wall Wi-Fi coverage in your home and throughout the amenity spaces at M5. The Rogers Ignite Wi-Fi promise delivers an effortless connected home experience whether you're lounging on the couch or poolside with friends.

 **DAS SYSTEM**  
A Distributed Antenna System (DAS) delivers Rogers wireless network throughout the building to increase wireless connectivity in places like the underground parking garage and elevators where it may be harder to get a consistent connection. That means reliable coverage to make calls, access data, stream music and more.

**ROGERS SMART COMMUNITY APP FEATURES:**  
This smartphone-based service with its wide range of app features keeps you connected to your home and provides the freedom to control your environment from the palm of your hands.

 **SMART LOCK**  
Every suite comes standard with an integrated smart lock for unprecedented access control directly from your phone.

 **SMART THERMOSTAT**  
Every suite comes standard with an integrated smart thermostat which allows you to control your home's temperature remotely and create heating and air conditioning schedules for comfort and energy efficiency.

 **SMARTPHONE VIDEO CALLING**  
See who's at the building entrance before letting them in.

 **FACIAL RECOGNITION ENTRY**  
Enter your building with only a smile.

 **PACKAGE DELIVERY**  
Never miss another delivery notification.

 **DIGITAL KEYS**  
Enter your building and suite using only your mobile phone.

 **COMMUNITY MESSAGING & AMENITY BOOKING**  
Receive building messages and news directly on your phone. Schedule and book your condo amenities from anywhere, anytime.

\*Speeds may vary with internet traffic, server gateway/router, computer (quality, location in home, software and applications installed), home wiring, home network or other factors. An Ethernet/wired connection and at least one additional wired or wireless connection are required to reach maximum download speeds of up to 1.5 Gbps for Ignite Internet Gigabit. See Acceptable Use Policy at [rogers.com/terms](https://rogers.com/terms). ™Trademarks of or used under license from Rogers Communications Inc. or an affiliate. ©2021 Rogers Smart Community and Bulk Internet Service monthly fees apply and are included in the common element budget. Refer to Condominium Documents for details. The Rogers Smart Community features, products and services described and/or depicted herein are subject to change in the sole and absolute discretion of Rogers Communications Inc. depending on the features, products and services ultimately integrated with the Rogers Smart Community program at the time of installation.

FEATURES + FINISHES

M CITY is the product of many minds.  
From the award-winning development team  
to the internationally acclaimed architects  
and designers, urban planners, engineers  
to marketing and sales professionals, this  
multidisciplinary group is inspired by a  
singular vision – to create a world-class  
community that will be a catalyst for the  
future of Mississauga’s City Centre.

**CREATORS +  
COLLABORATORS**

#### ROGERS REAL ESTATE DEVELOPMENT LIMITED

Rogers Real Estate Development Limited is the owner and developer of M City. The company is part of an affiliated group of companies, which together represent the Rogers family private holding companies. The Rogers family private holding companies are the majority and controlling shareholders of Rogers Communications Inc., a leading diversified public Canadian communications company created by one of Canada's all-time business giants, Ted Rogers.

The development of M City will continue Rogers' long history in Mississauga. In the 1960's Ted Rogers purchased 43 hectares of farmland in Mississauga on which to locate transmitters for one of his first business ventures, radio station CHFI. CHFI remains Toronto's number one rated radio station to this day. When the transmitters were relocated in the early 1990s, the site was retained by Ted and "we developed much of it and sold it to builders for new homes." The current site was re-zoned in 2002 to allow for a wider possibility of land uses including increased residential development.

Rogers Real Estate Development Limited has engaged the services of Urban Capital to manage the development of M City. "It is our intention for the launch of M City to be viewed as a catalyst for downtown Mississauga and we are honoured to have the opportunity to transform a long-held family asset into a new, lively community in the burgeoning downtown."

#### URBAN CAPITAL

Urban Capital is one of Canada's leading developers with an award-winning reputation for architectural design, environmental sustainability, and a commitment to cities. Working in partnership with the best architects, designers and planners, the company is widely recognized for its pioneering role in bringing high-design urban living across Canada.

Consistently named among the top 5 condo developers in Toronto, Urban Capital has over 9,300 condominium units developed or under development since 1996. With a reputation as urban regenerators, the company has brought its high standards and visionary approach to neighbourhood-conscious developments in Toronto, Halifax, Ottawa, Montreal, Winnipeg and Saskatoon.
